WORK EXPERIENCE

Grove Street Games   **Jan. 2024 – present**
Build Manager   *Gainesville, FL*

- In my role as Build Manager at Grove Street Games, I help oversee the build process across multiple platforms such as: Playstation, Xbox, and Nintendo. My responsibilities extend beyond build management as I collaborate closely with programmers and artists, providing support for various IT tasks within the office environment.

- Testing gameplay features (regression/ad hoc/smoke/performance tests).

- Implementing automation solutions to streamline daily workflows.

- Writing test cases, verifying reported software bugs.

- **Work with:** Jira, SVN, Perforce, Amazon S3, Playstation/Xbox/Nintendo Manager/SDK, Powershell.

University of Florida   **Oct. 2022 – Oct.2023**
IT Analyst I   *Gainesville, FL*

- As an IT Analyst at University of Florida, I supported the IT infrastructure and services for various departments. I also collaborated with different teams to troubleshoot and resolve technical issues, and ensure compliance with IT policies and standards. I was in charge of writing automation scripts using UFT One with VBScript and resolving automation aborts.

- Testing and troubleshooting University systems by running necessary SQL queries.

- Design specifications and coordinate integration across multiple platforms.

- **Worked with:** Oracle SQL, UFT One, Cherwell/Jira, AQT, Slate, Appman.

Appfire   **May 2021 – Oct. 2022**
Software Application Tester   *Remote*

- Testing BigPicture applications written in Angular and Java.

- Setting up an environment for Test Runs and writing step-by-step Test Cases.

- Automation testing of web-based applications using Cypress with Javascript.

- **Worked with:** JIRA, Gerrit, Cypress, Jenkins, Postman & Kubernetes.

Cheil Germany   **Jul. 2020 - Oct. 2020**
Junior Front-End Developer   *Remote*

- Implementing frontend solutions for Samsung websites (worldwide).

- **Worked with:** JS(jQuery, Slick), HTML, CSS, AEM, Selenium, and Adobe Xd.

Accenture   **2017 - 2018**
Website Content Specialist   *Warsaw, Poland*

- BMW website management using CQ5, following documentation from Munich headquarters.

- **Worked with:** HTML5, CSS3, JSON, AEM & JIRA.
